**TO WHOM IT MAY CONCERN**

Dear Sir/Ma,

**LETTER OF RECOMMENDATION**

I would like to recommend Godwin Anayo Igbokwe for admission in your university to study in BSC (Hons) Computer Security at Cardiff Metropolitan University, United Kingdom.

Mr. Godwin has worked with my company on several projects for over 2 years as a software developer.

He has a good attitude towards team work and delivers his own part of the project on time. Over the years he has also shown expertise and passion for cyber security.

I strongly believe that this is the opportunity he has been looking for to hone his skills and become the best in his field.

Undertaking this course at your university will equip him and help him fulfill his lifelong dream of being an expert in cyber security; so I strongly recommend him for the admission he is applying for in your prestigious institution.
